EXPORT CITY COMMENT:

NEW YORK -- While shipments of butter reported for the past week were comparatively light, the total reported was materially increased by two large shipments to Denmark and the United Kingdom in previous weeks. Cheese shipments amounting to 225,000 pounds were made to the Scandinavian countries in the past week. Large shipments of condensed and evaporated milk to the United Kingdom in the past two weeks were consigned "for orders". May 1st ships cleared with the eggs listed as having been shipped to Scandinavia and the United Kingdom.

BOSTON -- The large shipment of butter had been held on the dock for some time awaiting shipping space.

SUMMARY OF COLD STORAGE HOLDINGS OF BUTTER
AND EGGS ON JUNE 15th, 1919.

The cold storage holdings of Creamery Butter as reported amounted to 56,654,234 pounds. It is estimated that the unreported stocks would increase this amount to 56,765,000 pounds. This is 29,072,000 pounds more than was in storage on the same date last year. The net increased in cold storage holdings from June 1st to 15th amounted to 27,412,000 pounds compared with a net increase of 14,620,000 pounds during the same period in 1918.

The cold storage holdings of Case Eggs were reported as 7,013,624 cases. The estimated holdings of the storages not reporting would increase this amount to 7,043,000 cases. This is the largest quantity of eggs that was ever reported in cold storage at any one time in the United States. It is 849,000 cases more thatn were in storage on June 15th, 1918 and 1,024,000 cases more than on June 15, 1917.

The net increase in cold storage stocks during the first fifteen days in June amounted to 1,032,000 cases as compared with a net increase of 696,000 cases during the same period in 1918.

SUMMARY OF STORAGE HOLDINGS OF BUTTER AND EGGS ON JULY 15th, 1919.

The monthly report of the Bureau of Markets, Department of Agriculture, shows cold storage holdings of Creamery Butter and Case Eggs on July 15th as follows:

The 315 storages that reported Creamery Butter showed total stocks of 108,486,022 pounds. The 302 storages reporting for July 15th this year and last show present holdings of 108,352,943 pounds compared with 68,202,712 pounds last year, an increase of 58.9 per cent.

The 383 storages that reported Case Eggs showed total stocks of 7,680,963 cases. The 372 storages reporting for July 15th this year and last show present holdings of 7,670,578 cases, compared with 6,292,380 cases last year an increase of 21.9 per cent.

GEORGE LIVINGSTON
Acting Chief of Bureau.

CREAMERY BUTTER PRODUCTION DURING JUNE 1919.

"The preliminary report of the production of Creamery Butter in the U. S. during the month of June 1919, as compiled by the Bureau of Markets shows a production of 84,648,613 lbs. which represents an increase of 14.03 per cent over the production of June 1918. This comparison is based upon reports from 2,249 factories. The production during June 1918 was 3.66 percent greater than June 1917."

EXTRACTS FROM PRELIMINARY REPORT ON CONDITIONS AFFECTING LIVESTOCK, MEATS, AND DAIRY PRODUCTS IN FRANCE.

In submitting a general report relative to the livestock and meat industries in France, the writers wish to state at the outset that it has been very difficult to obtain accurate information on which to base opinions or from which to draw conclusions. This has been due, first, to the general uncertainty of conditions which has prevailed since the signing of the armistice; second, to the lack of recent statistical data.

The general policy of the French Government since the signing of the armistice has been to discourage the importation of products from foreign countries as much as possible in order to maintain the exchange value of the franc and to encourage the reestablishment and building up of French industries. It would appear that this policy has had a tendency to raise general price levels during the last few months.

THE LIVESTOCK SITUATION

Horses, cattle, sheep, and swine are now admitted to France without tax, and private citizens are allowed to import. Government officials state that livestock can be imported from the United States and that there are no sanitary regulations against such importations. Certain sanitary regulations, however, such as requiring a health certificate, will be effective and regulations no doubt will be formulated from time to time as it may be deemed conditions make them necessary, but the Ministry of Agriculture realized the need for livestock and livestock products, and it is believed that only the regulations necessary to guard against disease will be made.

POULTRY AND EGGS

The consensus of the opinions of persons with whom we have talked is that the number of chickens now in France is considerably lower than the number before the war. It has been impossible to obtain any accurate information on the number in the country or the decrease in number as compared with 1913. There is a general complaint that chickens are scarce.

Dressed chickens are high in price, those of average size retailing at 15 to 21 francs, or at the average rate of exchange prevailing during the past month, at about $2,65 to $3.70 apiece. Eggs have been selling at retail during the past month at 4 to 6 francs, or $0.70 to $1.05 a dozen. Dressed geese sell at retail for about 3.65 francs, or approximately $0.65 a pound.

BUTTER AND CHEESE

Butter and cheese are both scarce as compared with prewar times and are high in price. First class butter retails at 10 to 15 francs a kilo, or from about $0.75 to $1.15 a pound.

Cheese varies greatly in price, according to the kind, the retail prices ranging from about $0.75 to $1 a pound.

CHICAGO-- Market steady with improvement noted in shipping situation. Full cars are being moved quite readily probably in conjunction with straight food trains that have been handled by some of the railroads. Held stock said to be offering at lower prices today and some is being taken for export outlets righ t along.

NEW YORK-- There was somesmall trade on cheese but the market showed no real activity. Fine held cheese continues steady with demand chiefly for Flats, Daisies, and Young Americas. Young Americas are very scarce and on fancy held stock 34 cents is being asked. Twins quiet. Good demand for fresh cheese but dealers stocks are about cleaned up on this cheese. Export demand still quite active.

BOSTON-- Small trade was good today and there was some wholesale interest but the market was not active. Fancy lots very firm and some lots bringing more than the prices given but in general prices were unchanged. Demand better on winter made, these at 24-25 cents. Daisies more active at 29-31 cents for White, both single and double.

PHILADELPHIA-- The scarcity of Daisies and Longhorns has caused an extra demand for Flats and Twins which are moving readily at the prices named, some unparaffined fall made bringing the inside prices.

WISCONSIN*-- The market was very quiet, in fact there were barely sales enough made to indicate the condition of the market. The effects of the switchmen's strike appears to have reached all Wisconsin cheese shipping points.
